THE PROMISE

What you'll actually walk away with

Not inspiration. Implementation. Here's what two days in the room looks like for you.

A SOLUTION TO YOUR PROBLEM

Bring your biggest bottleneck. Work on it both days with an expert guide in the room — not from the sidelines.

SOMETHING YOU BUILT

A prototype, workflow, or AI system direction you created yourself — ready to refine and deploy when you're back in the office.

SKILLS THAT STICK

Learn to brainstorm with AI, connect it to the tools you already use, and set up systems that keep working after the retreat ends.

PEOPLE WORTH KNOWING

40 entrepreneurs max. Real conversations, shared meals, and focused working sessions — relationships that outlast the weekend.

A TAKE-HOME PLAYBOOK

Leave with a workbook full of tools, ideas, and next steps — so Monday morning isn't a reset, it's a launch.

EXPERIENCES YOU'LL REMEMBER

Shared meals and focused evenings that remind you this retreat is as human as it is high-tech.
